With a myriad of glass formations in a rainbow of colors, visitors will be visually treated to quite a sight when walking through the doors of BeDazzled Gallery. Partner Steve Arkawi describes his gallery as full of “unique pieces that are collectible items — pieces nobody else in town will own.”

BeDazzled Gallery specializes in hand-blown glass featuring internationally renowned artist Dale Chihuly, the talented Jim Novac and local designer Michael George who constructs fashionable, one-of-a-kind acrylic pieces. One will also find other artistic designs such as high-end jewelry featuring gold and diamonds. A perennial customer favorite is a gorgeous chandelier made of 75 pieces of glass. For anyone who wishes to purchase such a luxury, the chandelier can be crafted into custom sizes that will take approximately six weeks to complete.

Arkawi brings a wealth of knowledge to BeDazzled Gallery, which is evident in his expertise in design and wisdom of fine art. Since it opened five years ago, he has helped build the gallery into a successful and prosperous business with customers returning year after year. “We have been successful because what we have is so unique,” states Arkawi. “Visitors enter the gallery and are easily impressed with the beauty of the artworks and the tremendous talent it takes to produce such pieces.” They really add to a buyer's home or office and are great conversation starters.

BeDazzled Gallery also stages prestigious events featuring internationally known artists and celebrities. Many artists will visit the gallery to promote their pieces and discuss their inspiration for their works.
